## **DETAILED ACTION**

## Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: claims 1-36 direct to a batch testing method and apparatus for wireless communication devices comprising steps of: setting a plurality of wireless communication devices under test [DUT(s)] in a shielded anechoic chamber; generating a first testing signal; transmitting the first testing signal by a transceiving unit; receiving the first testing signal by the DUT(s); analyzing the received first testing signal; transmitting a plurality of second testing signals by the DUT(s); receiving the second testing signals by the transceiving unit; and monitoring the received second testing signals, classified in class 455, subclass 67.7 (See fig. 5 and Specification, page 7 line 7 to page 8 line 32).

Species II: claims 37-40 direct to a batch testing method for wireless communication devices comprising steps of: setting a plurality of wireless communication devices under test [DUT(s)] in a shielded anechoic chamber; selecting a transmitting group and a receiving group of DUT(s) from the plurality of DUT(s); transmitting a testing

Art Unit: 2618

signal by the transmitting group of DUT(s); receiving the testing signal by the receiving group of DUT(s); and analyzing the testing signal received by the receiving group of DUT(s), classified in class 455, subclass 67.7 (See fig. 6 and Specification, page 8 line 33 to page 9 line 21).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. **Currently, none of the above claims is generic**.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

Art Unit: 2618

the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.

103(a) of the other invention.

Conclusion

Page 4

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan A. Tran whose telephone number is (571) 272-

7858. The examiner can normally be reached on Mon-Fri, 10:00AM-6:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Anderson can be reached on (571) 272-4177. The fax phone number for the organization where this application or proceeding is assigned is 571-

273-8300.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a

USPTO Customer Service Representative or access to the automated information

system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
